Committee Member Reports: Janis reported that flyers would be placed at the cemeteries to show information about the society. Linot moved to distribute the flyers about town, Carr seconded, carried unanimously. Mayor Conway reported the Kermit and Lucille Cox Park has been staked out. Joel Pyle has received prices on stone and work should begin soon.

Although citizens and other businesses voiced concern over this action Conway recommended the Historical Society continue to look for a suitable location for their artifacts.

Bates has talked to the owners of the old train depot about moving it to Rose Hill. The owners are not interested. The committee discussed using part of the old city building next to the city library. That possibility, it was decided, was the most applicable option. Conway reported Joel and Cindy Maxey would get together to discuss options.

New Business: The committee discussed and showed interest in trying to compile a set of past yearbooks. Several committee members discussed offers and possible donations.

Jack Carr wondered how things would work with Cindy Maxey and her work to preserve the history as well. The committee voiced their wish to work with her to collect and preserve items.
